To Our Patient Regarding Cancellations and No-Shows

The following are our policies regarding cancellations and no-shows. We take this subject seriously because it can make the difference between whether you succeed in your treatment or not. Usually your referring doctor and or/your Physical Therapist have prescribed a set frequency of treatment. Showing up as scheduled for these visits is your most important job. Other than that, all you need to do is follow your Physical Therapist's instructions and we will be able to help you achieve your goals in treatment.

- We require 24 hour notice in the event of a cancellation. When you call in, it is your responsibility to have an alternative date and time in mind. This will ensure that you get the full prescribed number of treatments for that week whenever possible.
- There is a charge of \$25 for a cancellation without proper notice. This charge will not be covered by insurance and must be paid by you personally.
- Worker's Compensation and Personal Injury patients are hereby informed that documentation of any missed appointments is forwarded to the Case Manager and Primary Physician and could jeopardize your claim.
- When rescheduling a missed appointment, you may need to see a therapist who you have not seen before. Be assured that all of our therapists are experienced professionals, who will study your patient chart, so you will be in good hands. You will return to your usual therapist in the next regularly scheduled visit.
- Please understand that your pain will probably increase and decrease as your course of treatment progresses and before it is finally erased. The following may seem to be a reason not to come for your treatment. A) You're feeling worse and think the treatment is not working or B) You're feeling better and it's a great day for wind surfing. Neither of these conditions is legitimate as a reason not to come in. A) If you are in pain, come in and get it fixed, B) If you are out of pain, now is the time that we can begin doing some real correction of the underlying causes of your problem and educate you so you won't re-injure yourself.

To Our Patient Regarding Cancellations and No-Shows

When you don't show for a scheduled appointment, **three** people are hurt.

- 1. You**, because you don't get the treatment you need as prescribed by the doctor and or the Physical Therapists.
- 2. Your Physical Therapist**, who now has an open space in their schedule that was reserved for you personally.
- 3. A Patient who is in pain** who could have been scheduled for treatment if you had given proper notice.

Please co-operate with us in this regard by signing the agreement below. We're looking forward to working with you.
